

# NPDES Stormwater

## Technical Advisory Committee

### REPORT OF MEETING

TUESDAY, NOVEMBER 4, 2003

10:00 A. M

CITY OF FOSTER CITY

Page 1

#### 1. INTRODUCTIONS AND REVISION TO AGENDA

Self-Introductions were made and no revisions were made to the Agenda.

#### 2. PRESENTATIONS

- A. Fred stated that the Draft of the Stormwater Management Plan 2004 – 2009, minus the “Executive Summary” and the “Introduction and Background” sections were distributed at the October 21, 2003 TAC meeting and the “Executive Summary” and the “Introduction and Background” sections were e-mailed out prior to this TAC meeting, on October 31, 2003, prior to this TAC meeting. After discussion, there were no changes to the “Executive Summary” or the “Introduction and Background” sections. Extensive discussion was held on the “Performance Standards” section and there were two changes made, the first in the New Development and Construction Controls section and the second in the Public Information and Participation section. In the New Development and Construction Controls section, I. Development Plan Review and Permitting, the second sentence in paragraph 4 was changed to read “All projects, regardless of size, will be required to implement appropriate BMPs during construction activity. Each municipality as part of its permit approval process will consider incorporating appropriate source control and site design measures that minimize stormwater pollutant discharge to the maximum extent practicable as required by Provision C. 3 of STOPPP’s amended permit.” In the Public Information and Participation section, III. Storm drain Inlet Stencils and Signs, the second paragraph was changed to read, “Municipalities will maintain and facilitate stenciling of storm drain inlets or continue to implement the Regional Board staff’s previously agreed to alternative educational activities in lieu of stenciling/signing each municipally-owned inlet. Stencils may be maintained by public works staff and/or community volunteers. Stencils will be loaned to individuals, businesses, homeowners associations, and community groups who desire to stencil on private property or conduct volunteer stenciling.” After a full review was held, and upon a motion and second, The Stormwater Management Plan 2004 – 2009 was unanimously approved as amended. There were no abstentions.

#### 3. PUBLIC COMMENT

There was no public comment.

#### 4. ANNOUNCEMENTS

Bob did ask for sign-ups for future meetings.

The meeting was adjourned.
